

Raja Kalavala

Principal Software Engineer

✉ rajakalavala55@gmail.com ☎ +91-9668501411 🌐 <https://rajakalavala.com/>

PROFILE

Highly motivated Principal Software Engineer with hands-on experience building clean, scalable, and performant software solutions. Passionate about front-end architecture, modern web technologies, and integrating AI-driven capabilities to elevate user experiences. Effective collaborator with a growth mindset and strong problem-solving skills, committed to delivering high-quality code and driving technical excellence.

SKILLS

- Languages: JavaScript, TypeScript, HTML5, CSS3
- Frameworks & Libraries: Angular, React, Next.js, Node.js
- Concepts: Frontend Architecture, System Design, AI Integration
- AI/Modernization: LLMs, RAG, Agentic AI, AI Coding Tools

PROFESSIONAL EXPERIENCE

Principal Software Engineer

Dell Technologies

07/2022 – Present

Bengaluru

- Led the AngularJS-to-Angular GUI migration project for Dell BMC UI application.
- Designed the project architecture from scratch, established the build pipeline and testing infrastructure, and guided the team with strong technical knowledge.
- Introduced, planned, and delivered a modular GUI framework that enabled common, reusable components to be shared across multiple teams.
- Worked on AI-driven projects including chatbot development, log analysis, and data analysis solutions.
- Initiated AI-related processes to enhance the team's efficiency and accelerate AI solution development.

Design & Development Engineer

Siemens Healthineers

03/2019 – 07/2022

Bengaluru

- Worked on two major CT scanner healthcare solutions as a software developer using .NET, C#, ASP.NET Core, and Angular.
- Developed a hybrid mobile application that enabled doctors to operate and interact with CT scanner functionalities.
- Acted as Team Integrator, managing FI/RI activities through Azure DevOps pipelines.
- Collaborated with global engineering teams and followed TFS-based Agile development cycles.
- Improved application resilience by creating automated unit and UI test suites using Moq, Jasmine/Karma.
- Mentored interns on a Machine Learning-based AI chatbot project.

Software Engineer

Happiest Minds Technologies

10/2016 – 03/2019

Bengaluru

- Worked as a Full Stack Developer across web and mobile platforms for a large-scale E-Commerce application.
- Collaborated directly with the client throughout the project lifecycle and delivered feature demonstrations and presentations to stakeholders.
- Contributed to architectural discussions and participated in thorough code reviews to ensure high-quality and scalable solutions.

EDUCATION

Post Graduate in Machine Learning and Artificial Intelligence

Information Institute of Information Technology and Management (IIIT-B)

2024 – 2025

Bengaluru

Bachelor of Technology(BTech), Electronics and Communication Engineering

Centurion University of Technology and Management

2012 – 2016

Odisha
